

Partnership for  
Observation of the Global Ocean

**AOSED**

# COP24 Side Event

Enhancing ocean and climate observing in developing nations  
using low-cost technologies and capacity development

Date: **Tuesday 4 December**

Time: **16:45 - 18:15**

Location: **Narew**

POGO and AOSED are both organisations working to develop/deploy low-cost technologies & provide capacity development for ocean & climate observing in coastal waters of developing nations. In this session, representatives will share their perspectives & experience.

Stakeholders from these nations are invited to discuss their resource management needs.

**Chair: Sophie Seeyave, POGO CEO**

**Agenda:**

1. Opening remarks from chair

2. Presentations:

*Assessing Loss & Damage of Low Exposed Sudden Onset Disasters (NCCB)*

Presenters: Mizanur Rahman Bijoy, Coordinator, NCCB & Mohammad Mahbubur Rahman, NCCB

*Adaptive Strategy towards Resiliency of Climate Exposed communities*

Presenter: Shamim Arfeen, Executive Director, AOSED

*Observations of coastal waters in developing countries: the OpenMODs philosophy and approach*

Presenter: Alessandro Crise, Research Director, Istituto Nazionale di Oceanografia e di Geofisica Sperimentale (OGS)

*Capacity development in ocean and climate science*

Presenter: Eva-Maria Brodte, Scientific Coordinator of the NF-POGO Centre of Excellence, Alfred Wegener Institute (AWI)

3. Q&A from floor

4. Panel Discussion

5. Closing remarks/wrap-up from chair
