

Visiting Fellowship Programme 2021

Objectives

- Promote training and facilitate global capacity development
- Advance sustained global ocean observations & their applications

What is needed to apply?

- Application form
- Letter of recommendation
- Letter of acceptance from prospective host
- Quote for flights

What is covered?

- International airfare
- Transport from airport to host institution
- Contribution towards living expenses

What is NOT covered?

- Domestic travel in home country
- Visa costs and insurance
- Salary/bursary
- Training costs

Who can apply?

- Scientists
 - Technicians
 - Postgraduate students
 - Post-doctoral fellows
- ... from developing countries and countries with economies in transition.
Priority is given to early-career scientists.

Deadline
30 April 2021

E-mail: pogoadmin@pml.ac.uk

Website: <https://pogo-ocean.org/capacity-development/pogo-scor-fellowship-programme/>

What does the fellowship offer?

Funding to spend between one and three months at another oceanographic institute, anywhere in the world, to receive training on any aspect of oceanographic observation analyses and interpretation. The fellowship is NOT intended for an academic course of study, or for research.

Priority Areas

- Emerging technologies for ocean observations
- Coastal observations/ Coastal zone management
- Oxygen and other biogeochemical sensors on Floats and Gliders
- Ocean and coastal modelling
- Data management
- Argo floats & gliders
- Acoustic observations and modelling
- Optical measurements of living and non-living particles
- Time series measurements of N_2O and CH_4
- Ocean observations and modelling in the Indian Ocean
- Fixed-point time-series observations (e.g. contributing to OceanSITES, IODE Ocean Data Portal, WOD and/or other shared data systems)
- Large-scale, operational biological observations including biodiversity (e.g. biological Essential Ocean Variables including the Continuous Plankton Recorder and other programmes)
