

UN CLIMATE CHANGE CONFERENCE (COP27) 6-18 NOVEMBER 2022, EGYPT

UNFCCC COP27 Official Side Event on
Observing and understanding climate change and biodiversity from the coast to the deep ocean

Tuesday 15 November 2022, 11.30-13.00 EET
Blue Zone (Room 5 - Memphis)

The participating global networks will discuss how developing capacity for observing and understanding marine ecosystems will support tracking, forecasting and stewardship of these ecosystems to address the intertwined threats of climate change and biodiversity loss from the coast to the deep ocean.

SPEAKERS:

Pier Luigi Buttigieg (Germany), Sonigitu Ekpe (Nigeria), Nathalie Hilmi (Monaco), Margaret Leinen (USA), Lisa Levin (USA), Veronica Relano (Canada), Sarah Seabrook (New Zealand).
