

# NF-POGO Regional Training Programme on Marine Pollution and Biogeochemistry in coastal environments

## When?

12th - 25th  
November 2023

## Where?

Laboratoire LaMERE  
Department of Physics  
University of Kara  
Kara, Togo

## What?

Lectures, practicals and a field trip  
focusing on:

- Marine pollution
- Numerical modelling of pollutants/microplastics transport
- Statistics for marine pollution and biogeochemical data analyses
- Monitoring of EOVs and microplastics

## Who?

Training open to early career scientists, technicians, postgraduate students and post-doctoral who are nationals of and involved in relevant fields of marine pollution and coastal biogeochemistry in Middle and Western Africa.

## Funding

Limited number of travel grants. See conditions at training webpage.
